

## GAS DETECTOR

### • SINGLE AC/DC TYPE

Model : SHT-201, SHT-202

### Description

### Specification

Model No.	SHT-201(AC Type), SHT-202(DC Type)	Measuring method	12V.DC, Single type, Waterproof, Diffusion type, Catalytic combustion cell type, Immediately Alarm type
Measuring gas	LNG, LPG	Operating power	220/110V.AC(AC Type), 12V.DC(DC Type)
Measuring range	0~100%(LEL)	Alarm setting	20%(LEL)
Alarm concentration	LNG(0.06~1.25%) LPG(0.06~0.45%)	Alarm method	BUZZER - Automatic reset, flicker sound Leakage LED - Yellow flickering
Cable color	+(12V,DC/White), -(0V/Black) : AC Type +(12V,DC/Red), -(0V/Black), S(12V,DC/White) : DC Type	Output signal	DC.12V : White(+), Black(-)
Operating display	POWER LED(Green lighting), Alarm LED(Yellow flickering)	Consumption electric power	Normal(2W) / Alarm(2.1W)
Safety device	Over current off, Overheating prevent logic	Alarm sound	Over 70dB
Fuse capacity	0.3A(300mA)	Usable area	17m <sup>2</sup>
Detecting concentration	below 1/4 of lower explosive limit (LEL)	Operating temp' /humi'	-20℃~+40℃/less than 85%RH
Use	Apartment, Office building, Multi-family dwelling, Resort, Home automation facilities, etc.	Weight	0.15Kgs

### Dimension
