

AUTO SHUT-OFF VALVE(GENERAL,OUTDOOR,EXPLOSION PROOF TYPE) AND CONTROLLER

- GAS SHUT-OFF DEVICE WITH CONTROLLER (15A, 20A, 25A)

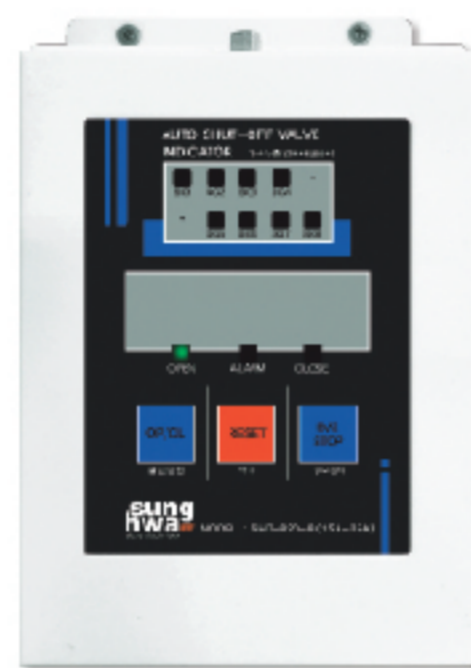

Model : SHT-820-4(4.Channel)  
SHT-820-8(8.Channel)

- Description**
- ◆ AUTO SHUT-OFF VALVE
  - ◆ MODEL : SHT-820-4(4.Channel), SHT-820-8(8.Channel)

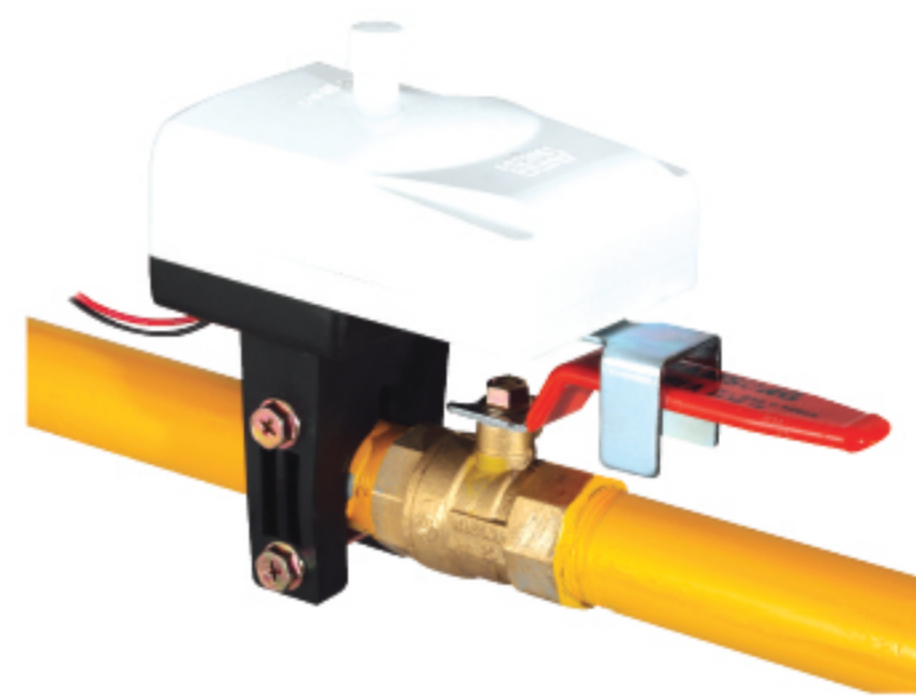

- Features**
- OP/CL at long range and shut-off valve automatically
  - Monitor the open/close state on controller
  - Prompt shut-off valve prevent an accident
  - Minimize the size and power consumption
  - Auto shut off valve apply to system of range of plant or heating and cooling system.

SHT-820-4

SHT-820-8

**Specification**

CONTROLLER			
Model No.	SHT-820-4(4.Channel) (Wall mount type) SHT-820-8(8.Channel) (Wall mount type)	Type	Auto shut-off valve controller
Operating power	110~220V.AC, 50/60Hz	Consumption electric power	0.5W(Normal), 2W(Alarm)
Control type	Time control type(30sec)	Receive type	Type to memory of voltage
Alarm input line	4.Channel, 8Channel	Alarm type	BUZZER
Output signal	12V.DC(ASV's operating voltage)	Output signal	OPEN/CLOSE/ALARM(Relay contact)(Option) -For input signal of extension alarm channel
Display type	(LED) Open-Green / Close-Yellow / Alarm-Red / FUSE CHK-Red (FND) OP-Open / CL-Close / OP flicker-Opening / CL flicker-Closing	Open/Close type	Manual and automatic open,close
Operating temp'/humi'	40℃~+70℃/Less than 95%	Power input cable	110~220V.AC Power - 2wire
Detector input cable	2wire	Shut-off device output	2wire(RED+, BLACK-)
Weight	1.00Kgs		

**Dimension**
